

# SM13090AR

## ROTARY HEAD TEMPLATE MACHINE

360 head rotation technology

### Buying points

1. It adopts a 360-degree rotating head with a dry head structure
2. Equipped with RFID automatic Identification System
3. Standard 2 times the amount of wire hook
4. Flexible programmable mid-press foot design
5. Innovative synchronous belt transmission mechanism
6. Equipped with a grabbing anti-nest structure
7. Equipped with a top thread breakage detection device and a bottom thread winding device
8. Folding Table, Easy and Fast Installation

### Application

#### Applied to

The cotton-padded jacket, down jacket, suit, shirt, Denim clothing, Jacket, bedding, etc.

### Main Specification

Equipment parameters	SM13090AR
Sewing range	1300x900mm X-axis 1300, Y-axis 900mm
Sewing speed	Maximum 3500 rpm
Power Supply	220V~/50HZ
Pressure	0.5Mpa
Pitch	1mm-7mm
Needle	DPx5 #8-#18
Needle height	20mm
Stroke of middle presser foot	0-8mm
Operating system	XING HUO
Optional device	Laser/Suction of air
Net weight	475kg
Gross weight	582kg
Machine dimensions	2200(Length) x 1950(Width) x 1420(Height)mm
Package size	1900(Length) x 1130(Width) x 1600(Height)mm
